Where Best Dreams Happen

Laying the foundation of excellence

Welcome To The DPS Castle of Dreams

This Kindergarten of DPS Kolar Road is a unique Pre-School set to the theme from the Arabian nights. On 23rd March, 2015 a fairy dream took shape as Castle of Dreams which is aesthetically pleasing, child friendly & has received admiring compliments from many parents and visitors. An innovative layout, quality furniture that brightens up the classrooms and resources that encompass all age groups in an educative setting, truly makes this place look and feel like the 'Castle of Dreams'.

We are a team of highly skilled professionals with a range of specialism that enhances a child's learning and development at an early stage.

Every professional within the setting regularly obtains professional development, enabling a dynamic and current practice of teaching and assessment that ensures a solid foundation for every child's earliest years.

What's new at Castle of Dreams

Meals at School (Nutrizone)

Eating a healthy diet helps children stay alert during class and 'Eating Together' helps in learning mannerism and eating etiquettes.

Nutritious and delicious vegetarian food planned by qualified dieticians is served in a clean and hygienic spacious mess. Special care is taken to ensure that the diet menu is offered to keep the students enthusiastic and healthy.

Bagless School

DPS Castle of Dreams follows no school bag, no homework policy as it will bring in new ways of teaching and parenting. The move, has been made, keeping in mind the seriously damaged ergonomic state of the very young. Children at this age must sleep more and play more for their healthy development.

'No homework policy' will be a good excuse for parents to find out more about the activities their wards feel genuinely interested in.

Reduction of workload, will not only ease the physical burden of children, but will also lighten their emotional lives equally.

*If you can
Dream it
you can achieve it*
